

In control through certification...

PTI Certification Workshop: Level 1 & 2 Multistrand & Grouted PT Specialist

This 3-day workshop is specifically aimed at field personnel involved in the installation, stressing, grouting, and supervision, of multistrand and bar post-tensioning systems used in bridge and building construction.

Upcoming workshops: (Check www.post-tensioning.org for updates)

Description: 3 days, 8:00 a.m. to 4:30 p.m. (lunch provided)

Workshop Schedule:

Day 1—Registration: 7:45 a.m. - 8:00 a.m.; Class: 8:00 a.m. - 4:30 p.m.

Day 2—Class: 8:00 a.m. - 1:30 p.m.; Field demo: 2:00 p.m. - 4:30 p.m.

Day 3—Class: 8:00 a.m. - 2:00 p.m.; Exam: 2:00 p.m. - 4:00 p.m.

Workshop topics:

- Introduction to post-tensioning
- PT systems materials and components
- Material properties and testing
- Installation
- Tendon stressing operations
- Grouting, including latest updates to the “PTI Specification for Grouting of Post-Tensioned Structures”
- Construction documents
- Corrosion protection of tendons
- Safety
- Troubleshooting
- Field demonstrations (half day)
- Certification exam

Who should attend: Contractors, installers, inspectors, engineers, DOT personnel, etc.

About the workshop: PTI invites you to increase your skill set and knowledge related to the installation, stressing, grouting, and inspection of grouted PT systems used in structural concrete applications. The intensive training course covers the installation of various types of duct systems, methods for installation of prestressing steel (including strand and bar), stressing equipment operation procedures, as well as grouting techniques and operation of grouting equipment.

As post-tensioning is increasingly recognized as the preferred method, owners and engineers are insisting that their projects meet the current industry standards for quality construction. To ensure this, major specifications are requiring personnel certification for PT field operations. Contractors are also finding that having certified personnel results in fewer problems, fewer errors, and more efficient and cost-effective operations

*It is the responsibility of the attendee to verify the PDH contract hours earned in this workshop meet the requirements of the state board of professional licensure for continuing education credits.

Benefits of Certification

Quality of materials and workmanship are critical to the performance of post-tensioning. Individuals who complete this training will have a sound working knowledge of all aspects of installation and inspection of all multistrand post-tensioning systems that will benefit them and their employers in many ways, including:

- Durability of PT construction
- Improved productivity
- Enhanced safety
- Code & specification compliance
- Risk reduction
- Improved profitability & competitiveness
- Professional development (18 PDH)*
- Better value for the owner

Certification Requirements

Level 2 Multistrand & Grouted PT Field Specialist

- Full workshop attendance
- Exam minimum score: 80%
- Field work experience: Total 1500 hours of which min. 250 in installation, and 250 in stressing, and 250 in grouting

Level 1 Multistrand & Grouted PT Installation

- Full workshop attendance
- Exam minimum score: 70%
- Field work experience: None

REGISTRATION FORM

Level 1 & 2: Multistrand & Grouted PT Specialist

38800 Country Club Drive, Farmington Hills, MI 48331
Phone: (248) 848-3180
email: pticertification@post-tensioning.org
Web site: www.post-tensioning.org

Note: Course content is pertinent to all types of multistrand and grouted post-tensioning construction, including bridges as well as building structures. PTI's training workshops feature presentations, group discussions, and field demos that allow participants to gain insight into the specific aspects of construction. Certification exams are administered at the completion of the classes. Applicants must attend all training sessions to be eligible to take the certification exam. Certification is valid for 4 years from the date of the workshop and can be renewed by passing an online exam. **Workshop manuals are sent to applicants in advance and applicants are encouraged to read the manual prior to the workshop.**

The workshop registration fee includes student manual, lunch, and refreshments all three days. It does not include the cost of travel or hotel lodging; participants must make their own arrangements. **PTI members and advanced registrations take advantage of discounted prices, as shown below.**
