^{**} Please contact PTI for alternate scheduling options.

[†] Facility needed for field demonstrations.

Costs for each workshop to be paid in full to hold dates and before manuals and equipment are sent.

Who should attend: Installers, inspectors, building officials, engineers, architects, etc.

One of PTI's primary goals is to ensure that specifiers and purchasers of post-tensioning materials receive products and services that meet a recognized standard of quality. The PTI certification programs were developed in pursuit of this goal and are now recognized and required throughout North America. Programs include certification for plants producing prestressed concrete strand, unbonded post-tensioning materials, and certification of field personnel.

Certification is required by the codes and specifications that note that installation shall be performed by individuals certified by an independent training and certification program. Individuals certified by PTI have been shown to meet this requirement. Proper training and education of personnel involved in post-tensioning field operations—Installers, Inspectors, Engineers, and others—are vital to ensuring the performance, serviceability, durability, and safety of post-tensioned concrete construction.

Location of workshop¹:

Address for classroom instruction: _____

Address for field demos, if different²: _____

Date range³: _____

Preferred days of the week (Weekdays, Weekends, Partial weekends): _____

Preliminary number of participants: _____

¹ Addresses will be used to ship classroom material / field equipment; additional shipping is client's responsibility.

² Note: field demos are only included in the Multistrand & Grouted, and SOG Workshops

³ Please provide a wide range of dates—for example: the second half of August, the month of October. Availability of instructor(s) will determine possible dates; please give as much notice and as wide range of dates as possible.

Steps necessary to schedule a special request workshop:

1. PTI proposes dates to the client based on the date range above and instructor(s) availability.
2. Client accepts the offered dates and confirms the number of attendees.
3. PTI issues an invoice based on the confirmed number of attendees. The invoice is payable immediately as the offered date(s) are not guaranteed until invoice is paid.
4. A minimum of three weeks is required from the date payment is received by PTI to the first day of the workshop for shipping of materials and reasonable travel arrangements for instructor(s). Initial shipping and handling of books, exam materials, and sample materials / equipment are included in workshop fees.
5. Any shipments of additional workshop materials (manuals, exams, etc.) are charged at the actual shipping cost plus handling, which is 50% of shipping cost.
6. Please note that all exams will be given to all attendees at the same time; it is not possible to administer exams separately for people who need to leave early.
7. The client provides for the workshop: A facility with LCD projector and external speakers for the instructor's computer (for videos); lunch and refreshments during the workshop; facility for field demonstrations (when applicable) including loading/unloading and hoisting.
