

**POST-TENSIONING  
INSTITUTE**

**Post-Tensioning Institute**

38800 Country Club Drive

Farmington Hills, MI 48331

Phone: (248) 848-3180

Fax: (248) 848-3181

Web: [www.post-tensioning.org](http://www.post-tensioning.org)

**Benefits of Certification**

Quality of materials and workmanship are critical to the long-term durability and performance of post-tensioning. Individuals who complete this training will have a sound working knowledge of post-tensioning installation and inspection that will benefit them and their employers in many ways, including:

- Durability of PT construction
- Improved productivity
- Enhanced safety
- Risk reduction
- Code and specification compliance
- Improved profitability and competitiveness
- Professional development (earn 18 PDHs upon completion of the workshop\*)
- Better value for the owner

**Code and Specification Compliance**

The International Building Code incorporates ACI 318, "Building Code Requirements for Structural Concrete," which requires that post-tensioning installation be performed by individuals **certified** by an independent training and certification program; PTI-certified field personnel have been shown to meet this requirement.

For workshop location updates, visit [www.post-tensioning.org](http://www.post-tensioning.org).

**Certification Requirements**

Level 2 Unbonded PT Installer

- Prerequisite: None
- Exam minimum score: 80%
- Work experience: 500 hours in PT Installation

Level 1 Unbonded PT - Field Installation

- Prerequisite: None
- Exam minimum score: 70%
- Work experience: None

*In control through certification...*

**PTI Certification Workshop:  
Level 1 & 2 Unbonded PT Installer**

This comprehensive 3-day workshop is designed to enhance the knowledge and capabilities of other key personnel involved in the construction and field inspection of single strand unbonded post-tensioning systems.

**Need PTI Inspector Certification?** Register for workshop from 3:00 p.m. to 6:00 p.m. on the 3rd day. See following page for details.

**Upcoming Workshops:** (Check [www.post-tensioning.org](http://www.post-tensioning.org) for updates)

**Description:** 3 days, 8:00 a.m. to 5:00 p.m. (lunch provided) first two days  
8:00 a.m. to 3:00 p.m. (lunch provided) third day

**Note:** If you already have Level 1 Unbonded PT Installation certification, please register for the second and third day only

**Topics covered include:**

- PT concrete concepts and theory
- Post-tensioning components
- Special requirements for encapsulated systems
- Installation requirements
- Use of stressing equipment
- Barrier cable installation
- Elevated structures
- Slabs-on-ground
- Documents, records, and approvals
- Troubleshooting and inspection of repairs

**Who should attend:** This training is of value to building officials, engineers, industry personnel, or anyone involved in installing, inspecting, supervising or managing unbonded post-tensioning installation.

**About our instructors:** Workshops are presented by instructors with extensive experience in post-tensioning inspection and engineering. Their knowledge of real-world principles and challenges provide attendees with an in-depth understanding of proper post-tensioning practices.

\*It is the responsibility of the attendee to verify that the PDH contact hours earned in this workshop meet the requirements of the state board of professional licensure for continuing education credits.

**Workshop prerequisite to attend workshop**

- Attendance at Level 1 & 2 Unbonded PT Installer Workshop

**Certification Requirements**

Level 2 Unbonded PT Inspector

- Prerequisite: None
- Exam Minimum Score: 80%
- Field work experience: 500 hours in PT Inspection
- Training as an Inspector

Level 1 Unbonded PT Inspector

- Prerequisite: None
- Exam Minimum Score: 80%
- Field work experience: None

**PTI Certification Workshop:  
Level 1 & 2 Unbonded PT Inspector**

This workshop is a 3-hour workshop supplement designed to certify Unbonded PT Inspectors. This workshop will enhance the knowledge and capabilities of individuals involved in the inspection of single strand unbonded post-tensioning (PT) systems.

**Upcoming Workshops:** (Check [www.post-tensioning.org](http://www.post-tensioning.org) for updates)

**Description:** 3 hours, 3:00 p.m. to 6:00 p.m. on third day of each Level 1 & 2 Unbonded PT Installer Workshop

**Topics covered include:**

- Inspection procedures
- Installation requirements
- Documents, records, and approvals
- Inspection of repairs

# REGISTRATION FORM

Complete this form and submit with payment to:

## Level 1 & 2 Unbonded PT Installer and Leve 1 & 2 Unbonded PT Inspector

38800 Country Club Drive, Farmington Hills, MI 48331  
Phone: (248) 848-3180 • Fax: (248) 848-3181  
Website: www.post-tensioning.org

**Note:** Course content is pertinent to all types of unbonded post-tensioning construction, including elevated slabs as well as slab-on-ground foundations. PTI's training workshops feature presentations and group discussions that allow participants to gain insight into the specific aspects of construction. Certification exams are administered at the completion of the classes. Applicants must attend all training sessions to be eligible to take the certification exam. Certification is valid for 4 years from the date of the workshop and can be renewed by passing an online exam. **Workshop manuals are sent to applicants in advance and applicants are encouraged to read the manual prior to the workshop.**

The workshop registration fee includes student manual, lunch, and refreshments all three days. It does not include the cost of travel or hotel lodging; participants must make their own arrangements. **PTI members and advanced registrations take advantage of discounted prices, as shown below.**
