PTI Certification Workshop: Level 1&2 Slab-on-Ground Installer & Inspector

This 2-day workshop is designed specifically for those involved with the installation and stressing of single strand unbonded post-tensioning systems for residential and light commercial slab-on-ground (SOG). Hands-on training is included in the workshop and will require students to demonstrate a proficiency in the skills required for working with single strand unbonded post-tensioning systems.

Upcoming Workshops: (Check www.post-tensioning.org for updates)

Description: 2 days, 8:00 a.m. to 4:30 p.m. (lunch provided)

Topics covered include:
- Introduction to PT fundamentals and systems
- Properties of prestressing steel
- Construction documents
- Installation practices
- Stressing operations
- Tendon finishing

Who should attend: This training is of value to installers, inspectors, building officials, engineers, or anyone involved in the installation of unbonded post-tensioning systems for SOG.

About our instructors: Workshops are presented by instructors with extensive experience in post-tensioning installation and inspection. Their knowledge of real-world challenges provides attendees with an in-depth understanding of proper post-tensioning practices.

*It is the responsibility of the attendee to verify that the PDH contact hours earned in this workshop meet the requirements of the state board of professional licensure for continuing education credits.
