POST-TENSIONING DESIGN FOR BUILDING STRUCTURES

This intensive seminar will focus on post-tensioning (PT) design, analysis, and construction considerations. Durability issues and the available PT systems will also be reviewed. Presentations will include hands-on training with practical examples to illustrate the topics covered. Key design concepts, code requirements, and useful design and construction tips will also be discussed.

This seminar is designed for individuals with some experience in PT design.

A half-day seminar (4 PDH/0.4 CEU credits)

WHO SHOULD ATTEND:
- Engineers
- Designers / Architects
- Building Officials
- Plan Checkers
- Code Specifiers
- Project Managers
- Contractors and Installers
- Inspectors
- Students
- Others involved in PT

SCHEDULE:
Registration: 7:30 a.m.—8:00 a.m./Seminar: 8:00 a.m.—12:00 p.m.
SEMINAR REGISTRATION FORM

Post-Tensioning Design for Building Structures

SEMINARS WILL BE PRESENTED BY ONE OR TWO OF THE FOLLOWING SPEAKERS:

Rashid Ahmed, P.E., S.E.—Walker Parking Consultants  Mr. Ahmed has many years of experience in PT design and has been instrumental in the design of several parking structures in North America. He is involved in many professional societies in the U.S. He is actively involved with PTI by chairing the Building Design Committee and as a member of the Technical Advisory Board. Mr. Ahmed is a member of ACI Committee 362, Parking Structures, and Joint ACI-ASCE Committee 423, Prestressed Concrete.

Bryan Allred, P.E., S.E.—Seneca Structural Engineering  Mr. Allred has extensive experience in PT design. He is a member of the Structural Engineers Association of California (SEAOC), ACI, and PTI. His primary consulting practice is in the design of post-tensioned concrete buildings and the use of PT in the retrofit of existing structures. Mr. Allred has taught numerous structural engineering courses at both California State Polytechnic University, Pomona; and the University of California, Irvine.

Donald Kline, P.E.—Founder and Principal, Kline Engineering & Consulting, LLC  Mr. Kline has over 24 years of experience in the design, construction, and repair of post-tensioned concrete structures. He serves on several PTI and ACI committees, including DC-20, Building Design; the PTI Technical Advisory Board (TAB); and Joint ACI-ASCE Committee 423, Prestressed Concrete. Mr. Kline serves on the PTI Board of Directors and is the current Vice President of the ACI National Capital Chapter.

Cary Kopczynski, P.E., S.E., FACI—Senior Principal & CEO, Cary Kopczynski & Company  Mr. Kopczynski has broad experience in the design of post-tensioned concrete buildings. His firm’s projects include apartment and condominium towers, office buildings, hotels, and parking structures. Mr. Kopczynski is a member of several ACI Committees, including ACI Committee 318, Structural Concrete Building Code, and is a Past President of the ACI Washington State Chapter. He chairs the Technical Advisory Board of PTI and serves on the PTI Board of Directors.

Miroslav F. Vejvoda, MBA, P.E.—Technical Director, Post-Tensioning Institute  Mr. Vejvoda is responsible for PTI’s technical publication development, is Secretary of the Technical Advisory Board (TAB), and is the Editor of the PTI JOURNAL. He provides technical assistance on matters related to PT design and construction. He has been involved in the design and construction of all kinds of PT applications across the U.S. and in Europe for over 25 years. He is a Fellow of ASCE and ACI and is a member of ACI Committees 301, Specifications for Concrete; 350, Environmental Engineering Concrete Structures; and Joint ACI-ASCE Committee 423, Prestressed Concrete.
