PTI M-10 PT Coatings TG Web Meeting
Meeting Notes

April 17, 2017 from 2:00 p.m. – 3:15 p.m.

TG Members Present:
Steve Ross (TG Lead), Bill Manson, Doug Schlegel, Shane Taylor, Michael Williams

Staff Present:
Miroslav Vejvoda, Amy Dowell,

Items discussed in this meeting:

- The need for performance based testing was reviewed
- There is another oil separation test relating to storage that might be worth investigating (ASTM D1742)
- Increased testing frequency
  - Need to define in the specification which PT Coating formula changes will require re-testing
- Discussed the idea of adding a specified color pigment to the PT Coating to indicate that it has been specially formulated for the end use and to weed out the junk mixes that are sold for lower cost.
- Update of the testing of PT Coating after it has been through the extruder. Michael Williams will send a sample to Steve Ross today for testing to be performed before the meeting in Atlanta.
- Steve Ross to contact the other suppliers to come up with some concrete tests and other test methods to discuss at the meeting in Atlanta.

Next meeting – Tuesday, May 2, 2017 from 8:00 a.m. to 10:00 a.m. at the Hyatt Regency Atlanta
